DARWIN TULIPS GREET THE MORNING SUN

BURNETT BROTHERS, Inc.
Seedsmen, Bulb Growers

92 CHAMBERS STREET

NEW YORK

INTRODUCTION

AUTUMN comes as a reminder to those who wish to enjoy the unrivalled beauty of the many spring flowers that bloom between March and June, that the bulbs from which this wealth of floral beauty emanates, must be planted in the Fall.

Although experienced gardeners need no such reminder, there are many whom this catalogue may reach, who are not familiar with the cycle of gardening operations that is essential in order that their gardens may possess these floral treasures, that rival in beauty and form the most brilliant display of the summer gardens, in which annual and perennial flowers predominate.

Our many years dealing with reputable growers of these bulbs enables us to obtain at all times the best they can produce, both in variety and highest quality, at reasonable prices.

Although we can invariably anticipate our sales with a fair degree of accuracy, many of our stocks become considerably depleted as the planting season advances. For this reason we advise those who desire their orders filled accurately and in full to order at once, and not wait until the ground is prepared to receive the bulbs.

BURNETT BROTHERS, Inc.

New York, June 20th, 1926.

A Word About Narcissus

The Federal Quarantine Act on Narcissus, now being in effect, we are obliged to relinquish our old Dutch sources of supply and turn to American growers who have been cultivating these bulbs in the states for several years past, and who claim very satisfactory results.

We offer this season only a few of the best known varieties. We have contracted with a reliable grower for bulbs of the very best grade only, and true to name. We are sure there will be none better obtainable than those we offer on the next page.

As stock is limited, we advise ordering early.

Polyanthus Narcissus American Grown

Polyanthus Narcissus are among the most popular of all winter forcing bulbs.

They are largely grown in pots or bowls of water and pebbles, in the living room, where they will thrive and bloom profusely.

PAPER WHITE GRANDIFLORA.

Doz. 100 1000

Most popular of all Winter forcing Narcissus. Monster bulbs \$1.25 \$ 8.00 \$ 75.00

GRAND SOLEIL d'OR.

Yellow with deep orange cup 2.50 18.00 175.00

CHINESE SACRED LILY

"Oriental Narcissus, or Fairy Flower"

Flowers white with yellow cups, produced in bunches of five or six on each stem. They are generally grown in a dish or bowl half filled with pebbles and water, although they do well when grown in pots.

Each, 30c; Doz., \$3.00

DAFFODILS NATURALIZED IN GRASS

Burnett's Narcissus & Daffodils

American-Grown

The various classes offer splendid material for massing in beds or borders, or for grouping among plants in the herbaceous border. They are extremely handsome naturalized in grass in clumps or in broken lines.

FINEST MIXED VARIETIES. A splendid assortment for mixed beds and grass planting..... (1,000, \$75.00)	1.25		8.00

Burnett's Giant Darwin Tulips

These wonderful tulips bloom in May after the early tulips, hyacinths and narcissi are over, and continue for from two to three weeks until the peony commences to unfold its petals.

To thoroughly enjoy their great wealth of beauty, and their stateliness, as they carry their giant flowers erect on tall stems, they should be planted in masses of at least 50 of a kind in open beds, or in wide borders close to a hedge, fence, shrubbery or residence, in fact anywhere that affords a background to show off their wonderful shades. They are also extremely effective planted among the perennials in the herbaceous border in colonies of 12 or more bulbs of a kind, where they can be left undisturbed for two or three years. Plant 4 to 5 inches deep and 6 inches apart.

Burnett's Famous Freesias

BURNETT'S "PURITY" FREESIA

This magnificent, glistening pure snow-white Freesia is undoubtedly the finest variety grown and is becoming more popular every year. The flowers are extra large and very fragrant. One bulb will throw from three to five flower spikes, each of which will have eight to eleven buds borne on extra long stiff stems, showing well above the foliage. Splendid for decorating.

Jumbo Bulbs. Doz., \$1.00; 100, \$6.00; 1,000, \$55.00.
Large Selected Bulbs. Doz., 75c; 100, \$5.00; 1,000, \$45.00.

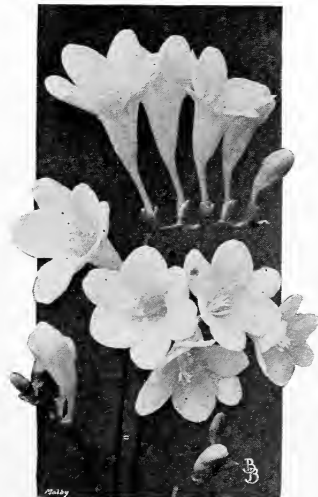

BURNETT'S NEW COLORED FREESIAS

We can supply these beautiful new Freesias which will produce flowers as large as "Purity," making a charming contrast to the famous White Freesia.

The yellow varieties should be very popular this year, as a very desirable forcing substitute for the many lovely yellow daffodils that we are obliged to omit owing to the Federal Horticultural Embargo.

BURNETT BROTHERS GRASS SEED MIXTURES

FOR HAY, MEADOWS AND PERMANENT PASTURES

OUR Permanent Pasture, Hay and Meadow Mixtures are composed of varieties of grasses best adapted for producing an abundant and nutritious food supply for stock. Our formulas are arranged with great care and the mixtures are made to suit the exact location and condition of soil, etc., for which they are needed.

Nothing but the best re-cleaned seeds are used, consequently it does not take so large a quantity per acre as that generally used when poor quality mixtures are sown.

We recommend four bushels to one acre, which may be sown either in the Spring or Fall, with an additional ten pounds of Mixed Clovers sown early in the Spring. When ordering please state whether for high, dry, medium, wet or heavy soil.

	Price Bushel 18 lbs.	100 lbs.
PERMANENT HAY AND PASTURE MIXTURE. For high and dry soil.....	\$7.50	\$40.00
PERMANENT HAY AND PASTURE MIXTURE. For wet soil.....	7.50	40.00
PERMANENT HAY AND PASTURE MIXTURE. For medium soil.....	7.50	40.00
MEADOW MIXTURE. Made up specially for any soil or location.....	7.50	40.00
WOODLAND PASTURE MIXTURE. For rough ground, woodlands, etc.....	7.50	40.00
TIMOTHY or HERD GRASS (Phleum pratense). Generally grown for hay. ½ bushel per acre	Bushel 45 lbs. 8.00	16.00

FOR SEPARATE GRASSES "SEE GENERAL SPRING CATALOGUE."

Burnett's "Special" Lawn Grass Mixture

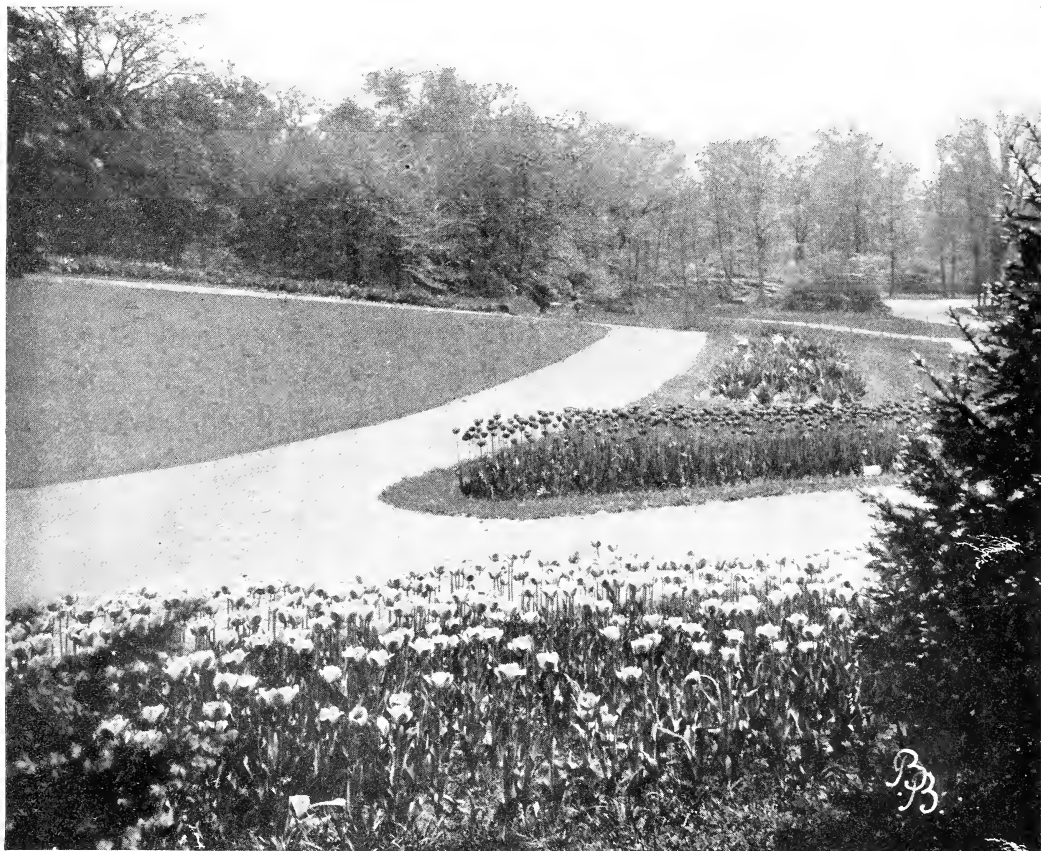

The above mixture is made from our own formula, and composed of grasses specially adapted for the purpose of producing turf which retains its rich green color and velvety appearance throughout the entire Summer and Fall. In making up this high grade mixture we are careful to use only the very finest quality of all the most desirable dwarf evergreen, re-cleaned grasses, free from chaff and weeds, which thrive well on any soil, thus ensuring a beautiful and permanent lawn. To obtain best results Lawn Grass Seed should be sown as soon as the ground can be prepared in early Spring. It may also be sown in the Fall with good results.

Quantity Seed Required For making New Lawns, we recommend sowing at the rate of 125 lbs. to the acre (approximately 6 bushels). Where small quantity is required, sow 1 lb. to each 400 square feet (20'x20'). For renovating old lawns, use half the quantity.

Price: 1 lb. 60c; 5 lbs. \$2.75; 20 lbs. \$10.00; 100 lbs. \$48.00

(20 lbs. of Burnett's "Special Mixture" is approximately one bushel.)
